March 12th, 2008 from 3:00 p.m. - 6:30 p.m.  
**Sheraton Premiere, Tysons Corner, VA**

Annual Conferences

About ACT and IAC

The **American Council for Technology** (ACT) is a non-profit educational organization established in 1979 to assist government in acquiring and using information technology resources effectively and efficiently. Working with all levels of government, ACT provides education, programming, and networking opportunities that enhance and advance the government IT profession.

In 1989 ACT established the **Industry Advisory Council** (IAC) to bring industry and government executives together to exchange information, support professional development, improve communications, and build partnership and trust, thereby enhancing government's ability to serve the nation. ACT and IAC work together to provide an objective, professional and ethical forum where government and industry leaders can collaborate on addressing common issues towards a shared vision.
